84310	10'
84312	12'
84325	25'

**DESCRIPTION**

The Safe Approach cable pass through anchor features durable rust resistance galvanized cable and high strength forged steel d-rings. The anchor is perfect for high heat or high abrasion areas where a web anchor would not be suitable. Simply wrap the anchor around the anchorage, pass the the small ring through the large ring and choke the anchor.
